OVERVIEW

In 2009, President Obama recognized the need to increase education and dialogue about cybersecurity, as called for in the Cyberspace Policy Review. As part of this policy review, the Department of Homeland Security (DHS) was asked to create an ongoing cybersecurity awareness campaign—Stop.Think.Connect. “[The] cyber threat is one of the most serious economic and national security challenges we face as a nation.” – President Barack Obama

The Stop.Think.Connect. Campaign is a national public awareness effort to guide the nation to a higher level of Internet safety by challenging the American public to be more vigilant about practicing safe online habits. Through partnerships at the federal, state and local level, as well as with private sector and nonprofit organizations, the Campaign is reaching thousands of Americans, providing tips on how they can protect themselves, their families and the nation from growing cyber threats.

GOAL

Americans are adopting new and innovative technologies and spending more of their time online. At home, at work and at school, our growing dependence on technology, coupled with the increasing threat of cyber attacks and risks to our privacy, demands greater security in our online world. The Stop.Think.Connect. Campaign’s overarching goal is to help Americans understand not only the risks that come with using the Internet, but also the importance of practicing safe online behavior. In addition, the Campaign aims to arm Americans at all levels with practical tips and tools to improve their online safety.

GET INVOLVED

There are many ways for you, your family or your organization to promote cybersecurity awareness within your community. DHS and Stop.Think.Connect. encourage you to help make the Internet a safer place by joining one or more of the following Campaign programs:

- **Friends of the Campaign**: If you want to learn about ways to better protect yourselves, your families and your community—become a Friend of the Campaign. All Friends have one thing in common: a commitment to understand and share messages about the importance of online safety. By becoming a Friend, you will receive information from the Campaign that you can use to improve online safety in your community. Become a Friend by signing up [here](#).

- **National Network**: The National Network is comprised of nonprofit groups and organizations that advocate and promote cybersecurity within their organizations and to their stakeholders. The Campaign is seeking to build relationships with organizations and groups that target government, industry, small business, parents and educators, young professionals and older Americans. Nonprofit organizations interested in promoting cybersecurity awareness within their organizations and community can join the National Network by sending their logo and a written request to stopthinkconnect@dhs.gov. There are no fees or financial obligations associated with membership.
CAMPAIGN BACKGROUND

- **Cyber Awareness Coalition**: The Coalition is open to federal agencies and state, local, tribal and territorial governments as an avenue to work directly with DHS and the Stop.Think.Connect. Campaign to promote awareness about cyber threats and online safety practices both within their organizations and to their stakeholders and citizens. Organizations interested in membership can easily join by sending an official logo and email stating intent to join to stopthinkconnect@dhs.gov.

FOR MORE INFORMATION

You have an opportunity to join in cybersecurity awareness efforts across the country. If you, your family or your organization is interested in more information about the Campaign, please visit www.dhs.gov/stophinkconnect.

Stop.Think.Connect™ is a national public awareness campaign aimed at empowering the American public to be safer and more secure online. The Campaign’s main objective is to help you become more aware of growing cyber threats and arm you with the tools to protect yourself, your family and your community.
